

# Positive Behavioral Interventions and Supports

Changing Lives  Barbara Kelley, CEO/President [www.pbisaltac.org](http://www.pbisaltac.org)  
[bullypreventionpbis.org](http://bullypreventionpbis.org)

California Technical Assistance Center on Positive Behavioral Interventions and Supports, Inc. (CalTAC-PBIS, Inc.)

---

---

---

---

---

---

---

---

## Outcomes: Rational / Experiential

**Rational Objective:** Develop a deeper understanding of school-wide positive discipline and its effect on students, families and communities.

**Experiential Objective:** Create a sense of urgency and “doability” for implementing a systems change process to create positive pro-social school cultures.

---

---

---

---

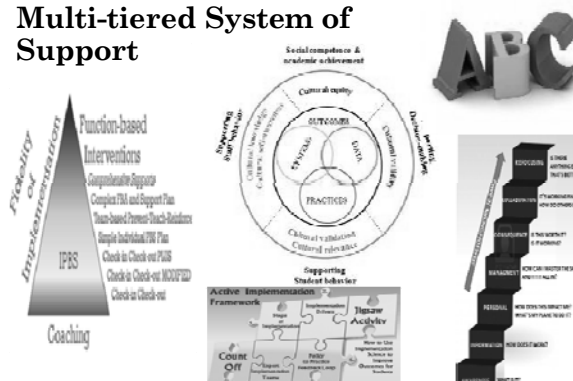

---

---

---

---

## PBIS is an Evidence-based Multi-tiered System of Support

The collage includes several key elements: a pyramid showing 'Prevention' at the top, 'Intervention' in the middle, and 'Support' at the base, with 'IPBS' and 'Coaching' at the bottom; a circular diagram with 'Social competence & academic achievement' at the top, 'Cultural equity' in the center, and 'Supporting Student Behavior' at the bottom; a 3D 'ABC' graphic; and a staircase diagram with steps labeled 'EVIDENCE', 'IMPLEMENTATION', 'EFFECTIVE', 'SUSTAINABLE', 'SCALABLE', 'ADAPTIVE', 'INTEGRATED', 'EVIDENCE', 'IMPLEMENTATION', 'EFFECTIVE', 'SUSTAINABLE', 'SCALABLE', 'ADAPTIVE', 'INTEGRATED'.

---

---

---

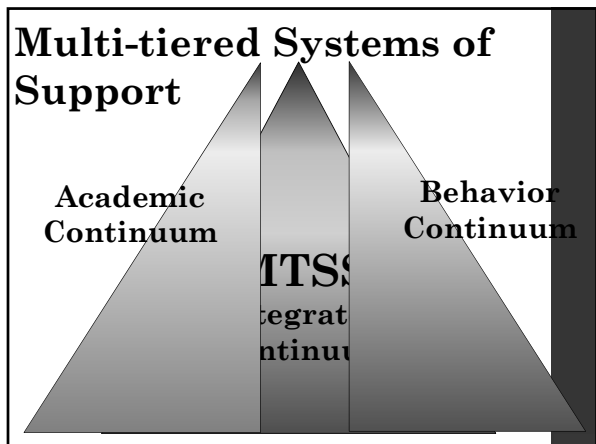

---

---

---

---

---

---

---

---

### Science of Behavior

**Antecedent (PREVENT)**

**Behavior (TEACH)**

**Consequence (REINFORCE)**

**has taught us:**

- Students are not born with bad behaviors.
- Students do not learn better ways of behaving when only given aversive consequences.
- To learn better ways of behaving, students must be **directly taught** the expected behaviors.
- To retain new behaviors, students must be given **specific positive feedback** and **opportunities to practice in a variety of settings** where the behaviors should be used.

---

---

---

---

---

---

---

---

## Common myths educators have about correcting misbehaviors

- ❖ Re-teaching appropriate behavior takes more time than punishing misbehavior. Teachers don't have time to teach appropriate behavior.
- ❖ We must punish misbehavior to provide an example to other students.
- ❖ Students should admit what they have done wrong so they can accept responsibility for their behavior. Students should apologize for their misbehavior to teach students to be empathetic.
- ❖ If we get tough early we will prevent future misbehavior.
- ❖ Zero tolerance policies make our school safer.
- ❖ Older students should have learned how to behave in school.

---

---

---

---

---

---

---

---

## Implementation Science National Implementation Research Network

Principle Researchers

- Dean Fixsen
- Sandra Naoom
- Karen Blase
- Robert Friedman
- Frances Wallace

2005 University of South Florida

---

---

---

---

---

---

---

---

## Five Implementation Frameworks

- Framework 1: Usable Interventions
- Framework 2: Implementation Stages
- Framework 3: Implementation Drivers
- Framework 4: Implementation Teams
- Framework 5: Improvement Cycles

---

---

---

---

---

---

---

---

### Systems Change

Resisters often have ideas that we might have missed

Resisters are crucial to the politics of implementation

"Respect those you wish to silence"  
(Heifetz, 1994)

---

---

---

---

---

---

---

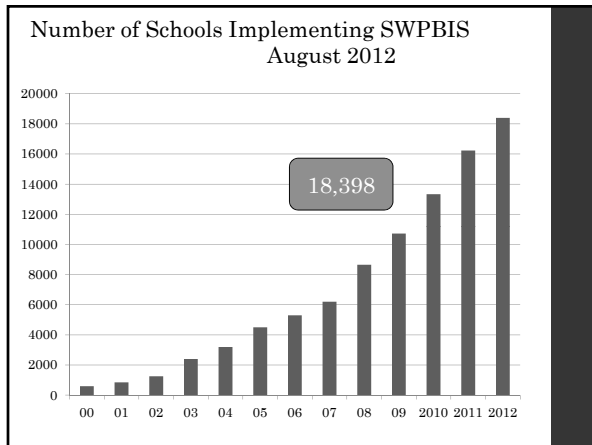

---

---

---

# PBIS Cultural Shifts

**School-wide**

Punitive and punishing to ...

**Proactive and teaching**

---

---

---

---

---

---

---

---

# PBIS Cultural Shifts

SYSTEMS CHANGE

**School-wide**

Principal does all discipline to ...

everyone teaches school-wide expected behaviors

---

---

---

---

---

---

---

---

# PBIS Cultural Shifts

SYSTEMS CHANGE

**CLASSROOM**

Arbitrary reactive discipline...

Planned, preventive, function-based **RESPONSES** to problem behavior

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

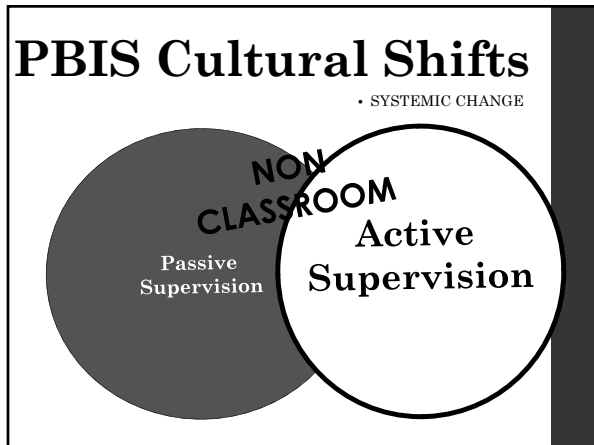

---

---

---

---

---

---

---

---

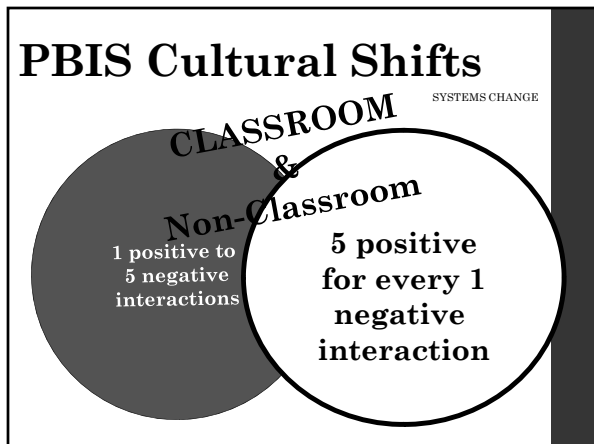

---

---

---

---

---

# PBIS Cultural Shifts

SYSTEMS CHANGE

Limited Parent Involvement to ..

**FAMILY**

**Inclusive**

---

---

---

---

---

---

---

---

# PBIS Cultural Shifts

SYSTEMS CHANGE

Obedience with emphasis on punishment to ...

**STUDENT**

**Internal motivation for exhibiting pro-social skills in supportive environments**

---

---

---

---

---

---

---

---

# Table Chat

- Think, for a moment, about the cultural shifts that PBIS requires.
- Identify which YOU think will be the:
  - EASIEST and
  - MOST CHALLENGING cultural shift for your staff to make.
- Round robin share with your team.
- Identify THREE action steps you will take to begin to address these shifts.

---

---

---

---

---

---

---

---

### Need: Establishing the Why here it starts...

---

---

---

---

---

---

---

---

---

---

### ...where it often Ends

---

---

---

---

---

---

---

---

---

---

### WHY WE NEED PBIS

- ◆ Increases in drop-out rates
- ◆ Decreases in academic achievement
- ◆ Increases in problem behaviors
  - ◆ Attendance
  - ◆ Tardies
  - ◆ Gang related behaviors
  - ◆ Disruption
  - ◆ Defiance
  - ◆ Physical Aggression
- ◆ Decreases in teacher satisfaction
- ◆ Decreases in graduation rates
- ◆ Increases in school violence
- ◆ Decreases in student-teacher relationships
- ◆ Increases in suspensions and expulsions
- ◆ Decreases in sense of school safety

---

---

---

---

---

---

---

---

---

---

### More WHY...

- ❖ School Discipline problems are among the most common factors determining staff turn-over and teacher burn-out (Ingersol, 2001)
- ❖ High rates of challenging behavior effect
  - ❖ Negatively effect the climate
  - ❖ Distract both students and teachers from focusing on academic goals (Jimerson, et al, 2000)
- ❖ Youth exposed to high rates of violence at school are more likely to...
  - ❖ Disengage from school (Bowden and Bowen, 1999)
  - ❖ Experience cllinical levels of mental and emotional disorders than are students who experience no or low levels of violence at school (Flannery et al, 2004)

---

---

---

---

---

---

---

---

### what we know to inform where we typically go!

- ❖ Historically, schools have tried to “control” students with punishment.
- ❖ **Punishment** is a **reactive** strategy
- ❖ Reactive strategies require educators to use **negative** and **exclusionary** practices
- ❖ Exclusionary practices **remove** students from instruction.
- ❖ Reactive practices don't work to **prevent** student misbehavior and often don't work to stop misbehavior and **often escalate** misbehavior
- ❖ There is a **relationship** between behavior and academic achievement

---

---

---

---

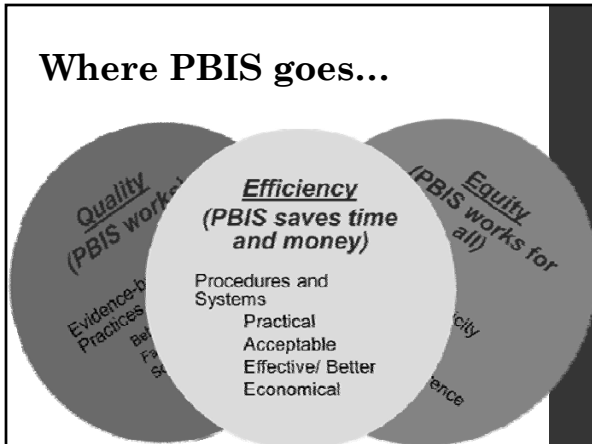

---

---

---

---

### Where PBIS goes...

---

---

---

---

---

---

---

---

## Positive Behavioral Interventions and Supports: a Multi-tiered System of Support

- **Increase Positive, Preventive, and Pro-Active** School-wide cultures, where all students and staff share a **common vision, experience and language**.
- **Increases** in graduation rates, attendance, equity, perception of safety and academic achievement and engagement for all students
- **Decreases** in behavior problems, suspensions, expulsions, and staff burn-out
- Follow: Evidence-based Practice
  - National Implementation Blueprint
  - National Evaluation Blueprint
  - National Professional Development Blueprint
  - Implementation, Behavioral, Systems Change Science

---

---

---

---

---

---

---

---

## PBIS Blueprint: District Implementation Teams

- **Purposes:** This district level self-assessment has been designed to serve as a multi-level guide for (a) appraising the status of positive behavior support (PBS) organizational systems, and (b) developing and evaluating SWPBS action plans.

---

---

---

---

---

---

---

---

## Resources: PBIS Systems, Data, & Practices

- **3-5 year training cycle** building internal capacity for school and district teams
  - Year 1 is School-wide and Classroom-wide PBIS
  - Year 2 is IPBS for targeted group and function based planning
  - Year 3 is IPBS for individual student intervention
- **Coaches Trainings** – staff buy-in; deeper training in the science’s
- **Coaches Forums** – Sustainability and Collaboration
- **PBIS Skillbuilders** – on-going professional development
  - Bully Prevention – PBIS Campaign
  - PBIS and Autism Spectrum Disorder
  - Early Learning Years: Socio-emotional Skills for TK, K, 1<sup>st</sup>/2<sup>nd</sup> grade classrooms
  - Early Childhood: Pre-school PBIS
  - Intensive PBS
  - SWIS Facilitator Training
- **PBIS Trainer of Trainers** Workshops
- **Summer Institute** addresses current state-wide needs for sustainability

---

---

---

---

---

---

---

---

## 8 Steps to SW-PBIS Implementation in a Multi-tiered System of Support

1. Implementation Team: Personalities, Roles, Effective Teams
2. Behavioral Statement of Purpose: Establish the "Why" for buy-in
3. Defined Expected Behaviors: Common Language, Experience, Equity
4. Developed SW-Teaching Matrix: Function-based thinking
5. Developed CW-Teaching Matrix: Evidenced-based practices
6. Established a SW and CW System for Encouraging Expected Behaviors: Build intrinsic vs extrinsic motivation
7. Established a System for Discouraging Misbehavior: Major vs. Minor, common definitions and a discipline process
8. Established a System for Evaluating Important Outcomes: How to use data for decision-making...

---

---

---

---

---

---

---

---

---

---

## Intensive PBS (IPBS)

**IPBS Overview:**  
Science, Logic and Application

**IPBS Systems:**  
Teaming Process  
Identification and Selection  
Data for Decision-Making Process

**IPBS Function-based Practices:**  
Check-in Check-out Successes and Barriers  
Check-in Check-out Procedures and Guidelines  
Check-in Check-out MODIFIED  
Check-in Check-out PLUS  
CICO-SWIS  
Team based FBA's-BIP's  
Prevent - Teach - Reinforce (PTR)  
Wraparound Services  
ISIS-SWIS

---

---

---

---

---

---

---

---

---

---

## Evidence-Assessment of PBIS Outcomes

Are we achieving the results we would like to see?

Are we implementing the program the way it was intended to get the expected results?

1. Student / Staff / Family / Community Outcomes
2. Fidelity of Implementation

---

---

---

---

---

---

---
