EXECUTIVE SUMMARY

Introduction

In accordance with the Judicial Branch Annual Audit Plan approved by the Advisory Committee on Audits and Financial Accountability for the Judicial Branch, the Judicial Council of California's (Judicial Council) Office of Audit Services (Audit Services) performs audits of appellate court operations. Audit Services conducts performance audits of the appellate courts in order to verify their compliance with the Judicial Council's policies and applicable state law. These audits are primarily focused on assisting the courts identify which of their practices, if any, can be improved upon to better promote sound business practices and to demonstrate accountability for their spending of the public's funds.

State law authorizes the Judicial Council to establish each appellate court's annual budget and to adopt rules for court administration, practice, and procedure. Most of the criteria used by Audit Services to conduct appellate court audits stems from the policies promulgated by the Judicial Council, such as those contained within the *Judicial Branch Contracting Manual*. These policies establish both mandatory requirements that all appellate courts must follow, as well as suggestive guidance. California's courts vary widely in terms of their caseloads, budget, and staffing levels, thus requiring the Judicial Council to adopt rules that at times provide the courts with flexibility given their varying resources and constraints.

Audit Services' annual audit plan for the Judicial Branch establishes the scope of each audit and provides a tentative schedule for the appellate and superior court audits planned for the fiscal year. The audit plan explains those scope areas deemed to be of higher risk based on Audit Services' professional judgment and recognizes that other state audit agencies may, at times, perform reviews that may overlap with Audit Services work. In those instances, Audit Services may curtail its planned procedures as noted in the scope and methodology section of this report.

Summary of Audit Results

Our review found that the California Court of Appeal, 6th Appellate District (Court), should be commended for demonstrating material compliance with all of the Judicial Council's requirements evaluated during the audit, as well as for following sound internal controls and business practices for those areas for which appellate courts have not yet established applicable requirements or guidance. Table 1 below presents a summary of the audit's results.

Table 1 Audit Results – At a Glance – California Court of Appeal, 6th Appellate District

Areas and Sub-Areas Subject to Review		Tested	Reportable Audit Findings		
			# of Findings	Finding Reference(s)	Court's View
Cash Handling					
1	Daily Opening Process	N/A	-		
2	Voided Transactions	N/A	-		
3	Manual Receipts	N/A	-		
4	Mail Payments	N/A	-		
5	Internet Payments	N/A	-		
6	Change Fund	N/A	-		
7	End-Of-Day Balancing and Closeout	N/A	-

Source: Auditor generated table based on testing results.

Note: Areas subjected to testing are generally based on requirements in the Judicial Branch Contracting Manual, but may also include other Judicial Council policies and directives. Areas not tested are based on audit determinations—such as area not applicable, recently reviewed by others, or no transactions selected to review—which are described more fully in the Audit Scope and Methodology section of the report. When there are findings, applicable criteria are cited in each audit finding in the body of our report. The Judicial Council's audit staff determine the scope of each audit based on their professional judgment and the needs of the Judicial Council, while also providing the Court with an opportunity to highlight additional areas for potential review depending on available audit resources.

Overall, the Court demonstrated a sound system of internal control and business practices that resulted in consistent material adherence to all the requirements evaluated during the audit, as shown in Table 1. In particular, the Court demonstrated strong compliance in the areas of procurement and payment processing. For example, our review of its procurement practices found that the Court had sound management practices in the areas of soliciting non-competitive procurements and ensuring contract terms were reasonable. In addition, with regards to payment processing, the Court demonstrated sound management practices in the areas such as paying reasonable and allowable costs.

Our audit did note and communicate to the Court some instances of minor or isolated non-compliance which were not considered significant and, therefore, not included in this report.

Summary Perspective of Court Officials

Audit Services initiated its audit of the Court on July 29, 2020, and completed the fieldwork on October 18, 2020. Audit Services shared a summary of minor or isolated non-compliance items with the Court on November 10, 2020. The Court agreed with the overall audit results.

BACKGROUND ON THE COURT’S OPERATIONS

The California Court of Appeal, 6th Appellate District’s (Court) jurisdiction covers 4 of the State’s 58 counties located in central western California. The Court operates under the authority and general oversight of the Administrative Presiding Justice, who is responsible for ensuring the effective management and administration of the Court, consistent with any rules, policies, strategic plan, and the funding provided by the Judicial Council.

California’s six appellate districts each have differing workloads, staffing levels, and financial resources. They operate under a decentralized system of governance and are each responsible for their own local court operations and business decisions. The Administrative Presiding Justice has the authority to: develop a local budget and allocate the funding provided by the Judicial Council; approve procurements and contracts; and authorize the Court’s expenditures. The information in Table 2 is intended to provide the reader with context and perspective on the Court’s relative size and workload compared to the other five appellate districts.

Table 2 – Statistical Data for California’s Six Appellate Districts

Statistic	6 th Appellate District	1st Appellate District	2nd Appellate District	3rd Appellate District	4th Appellate District	5th Appellate District	Statewide
Judicial Officers and Staff (Fiscal Year 2018-19)							
Justices	7	20	32	11	26	10	106
Non-Judicial Staff (approx.)	45	90	217	77	171	66	666
Total	52	110	249	88	197	76	772
Notices of Appeal (Fiscal Year 2018-19)							
Filings:

Source: Appeal filings and dispositions data maintained by the Judicial Council. The appeal filings and dispositions counts are from the Judicial Council’s 2020 Court Statistics Report, which was the most recent version available when this audit report was prepared and included data through fiscal year 2018-19. The judicial officer and staff counts are also from the Judicial Council’s 2020 Court Statistics Report.

AUDIT SCOPE AND METHODOLOGY

Audit Services initiated an audit of the California Court of Appeal, 6th Appellate District (Court) in order to determine whether it complied with certain key provisions of statute and the policies and procedures adopted by the Judicial Council of California. Our audit was limited to evaluating compliance with those requirements that, in our professional judgment, were necessary to answer the audit’s objectives. The period covered by this audit was generally limited to fiscal year 2019-20, but certain compliance areas noted below required that we review later periods or current practices. Table 3 lists the specific audit objectives and the methods we used to address them.

Table 3 – Audit Objectives and the Methods Used to Address Them

	Audit Objective	Method
1	Through inquiry, auditor observation, and review of local court policies and procedures, identify areas of high risk to evaluate the Court’s compliance.	Audit Services developed an annual audit plan generally identifying areas of high risk at the appellate courts. At the Court, we made inquiries and reviewed any local procedures to further understand its unique processes associated with each compliance area.
2	<p>Determine whether the Court implemented adequate internal controls over its handling of cash receipts and other payments. Such a review will include, at a minimum, the following:</p> <ul style="list-style-type: none"> ▪ Determine whether the Court complied with generally accepted internal controls over cash (payment) handling. ▪ Assess the quality of the Court’s system of internal controls to minimize the potential for theft, such as controls over the use of manual receipts and voided transactions. 	The Audits and Financial Accountability Committee approved the fiscal year 2020-21 Audit Plan during the July 14, 2020 meeting. Per the approved Audit Plan, Audit Services proposed temporarily suspending cash handling audit work due to COVID-19. Our audit procedures rely extensively on in-person observations of key controls, and budget reductions and travel restrictions arising from COVID-19 limit our ability to complete this work. Therefore, Audit Services did not review cash handling internal controls and processes for the Court during the course of this audit.
3	Determine whether the Court demonstrated appropriate internal controls over its non-personal services spending activities. Specifically, our review included the following:	We reviewed the Court’s assignment of purchasing and payment roles to assess whether it appropriately segregated staff roles for authorizing and approving purchases, procuring the goods or services, receiving acceptable goods or services, and paying for the goods or services.

	<ul style="list-style-type: none"> ▪ Determine whether the Court’s procurement transactions demonstrated a sound system of internal controls and complied with the applicable requirements in the Judicial Branch Contracting Manual. ▪ Determine whether the Court’s payment transactions—including but not limited to vendor payments and claim payments – demonstrated a sound system of internal controls, were reasonable, and in compliance with applicable Judicial Council policies and rules. 	<p>We also judgmentally selected a sample of 25 procurement transactions and assessed whether each transaction:</p> <ul style="list-style-type: none"> • Was properly authorized and approved by authorized court management. • Adhered to competitive bidding requirements, when applicable. • Had contracts, when applicable, that contained certain terms required to protect the Court’s interests. <p>We selected a sample of 40 payments pertaining to various purchase orders or contracts and determined whether:</p> <ul style="list-style-type: none"> • The Court had a process in place to ensure goods and services are received and accepted, and in accordance with contract terms prior to payment. • Appropriate court staff authorized payment based on the Court’s payment controls and authorization matrix. • Whether the payment reasonably represented an allowable cost.

Assessment of Data Reliability

The U.S. Government Accountability Office requires us to assess the sufficiency and appropriateness of computer-processed information that we use to support our findings, conclusions, or recommendations. In performing this audit, we obtained and reviewed financial transaction data from the Judicial Council’s FISCAL financial system—the statewide automated accounting system used by appellate courts—for the limited purpose of selecting Court transactions to test compliance of its procurement and related payment activities with applicable policies and procedures. Prior to making our selections, we obtained a listing of non-personal service expenditure transactions relevant to our testing from the Judicial Council’s Budget Services unit. These expenditure transactions are included in the Court’s total expenditures report, which we reconciled with the Court’s total actual expenditures noted in the fiscal year 2020-21 Governor’s Budget. Our analysis noted no material differences leading us to conclude

that use of the Court's financial transaction data was sufficiently reliable for the limited purpose of selecting transactions for testing.

Report Distribution

The Judicial Council's *Advisory Committee on Audits and Financial Accountability for the Judicial Branch* reviewed this report on March 10, 2021, and approved it for public release.

California Rules of Court, Rule 10.500 provides for the public access to non-deliberative or non-adjudicative court records. Final audit reports are among the judicial administrative records that are subject to public access unless an exemption from disclosure is applicable. The exemptions under rule 10.500 (f) include records whose disclosure would compromise the security of a judicial branch entity or the safety of judicial branch personnel. As a result, any information meeting the nondisclosure requirements of rule 10.500(f) have been omitted from this audit report.

Audit Staff

This audit was completed by the following staff under the general supervision of Dawn Tomita, Audit Supervisor:

Michelle O'Connor, Senior Auditor (auditor-in-charge), CPA, CFE

Veronica Perez Lee, Auditor, CFE

SCHEDULE OF AUDIT RESULTS

CASH HANDLING

Background

Courts of Appeal (appellate courts) must collect and process customer payments in a manner that protects the integrity of the courts and their employees and promotes public confidence. Thus, appellate courts should institute a system of internal control procedures that assure the safe and secure collection, and accurate accounting of all payments. A court's handling of collections is inherently a high-risk activity given the potential incentives for court employees to act inappropriately when generally accepted internal controls are compromised or not in operation.

With this important function and responsibility in mind and the fact that the appellate courts do not currently have formal policies and procedures similar to the cash handling policies and procedures found in the Trial Court Financial Policies and Procedures Manual for superior courts, the appellate courts are in the process of creating such policies and procedures.

At the Audit Committee's July 14, 2020 meeting, the committee suspended performance of our audit procedures related to Court "cash handling" requirements. Our audit procedures rely extensively on in-person observations of key controls, and budget reductions and travel restrictions arising from COVID-19 limited our ability to perform this work.

PROCUREMENT AND CONTRACTS

The Court Follows Sound Procurement Practices and Controls that Ensure Each Procurement is Appropriate

Courts of Appeal (appellate courts) are expected to procure goods and services in a manner that promotes competition and ensures best value. To guide courts in this pursuit, the Judicial Branch Contracting Manual provides uniform guidelines for appellate courts to use in procuring necessary goods and services and in documenting their procurement practices. Appellate courts must demonstrate that their procurement of goods and services are conducted economically and expeditiously, under fair and open competition, and in accordance with sound procurement practice. Typically, a purchase requisition is used to initiate all procurement actions and to document approval of the procurement by an authorized individual. The requestor identifies the goods or services, verifies that budgeted funds are available for the purchase, completes the requisition form, and forwards it to the court manager authorized to approve purchase requests. The court manager is responsible for assessing the appropriateness and necessity of the requested items, assuring that sufficient funds are available, and verifying that the correct account codes are specified before approving and forwarding the requisition form to the staff responsible for procuring goods and services. Depending on the type, cost, and frequency of the goods or services to be procured, staff responsible for procuring goods and services may need to perform varying degrees of procurement research to generate an appropriate level of competition and obtain the best value. Procurement staff may need to also prepare and enter the agreed terms and conditions into purchase orders, service agreements, or contracts to document the terms and conditions of the procurement transaction, and maintain a procurement file that fully documents the procurement transaction.

The 6th Appellate District (Court) demonstrated material compliance in the various procurement areas we evaluated during our audit, including demonstrating sound management practices in the areas of soliciting non-competitive procurements and ensuring contract terms were reasonable.

Although we identified no reportable audit findings in this area, we nevertheless did identify and communicate to the Court isolated instances of minor non-compliance related to its procurement practices.

PAYMENT PROCESSING

The Court Generally Follows Review and Approval Processes that Ensure Payments are Proper

Courts of Appeal (appellate courts) must institute procedures and internal controls to ensure they pay for appropriate goods and services in an economical and responsible manner, while ensuring that they receive acceptable goods and services prior to payment. For example, generally accepted payment processing practices suggest all invoices and claims received from appellate court vendors, suppliers, consultants and other contractors be routed to the appellate court accounts payable department for processing. The accounts payable staff must process the invoices in a timely fashion and in accordance with the terms and conditions of the purchase agreements or contracts. Staff must match and verify all invoices to the proper supporting procurement agreement and goods or services receipt documentation, and must ensure payment approval is authorized by court management acting within the scope of their authority.

The 6th Appellate District (Court) demonstrated material compliance in all of the payment processing areas that we evaluated during our audit. For example, the Court demonstrated sound management practices in the areas such as ensuring costs are reasonable and allowable.

Although we identified no reportable audit findings in this area, we nevertheless identified and communicated to the Court some instances of minor non-compliance related to its review and approval of payments.

OTHER AREAS

We did not identify any other significant areas during the initial audit planning process that, based on our professional judgement, warranted any additional audit work. Therefore, we did not review any other areas.
