Executive Summary

The Trial Court Facility Modification Advisory Committee has completed its facility modification funding for the second quarter of fiscal year 2014–2015. In compliance with the *Trial Court Facility Modifications Policy*, adopted by the Judicial Council on July 27, 2012, the advisory body is submitting its *Trial Court Facility Modification Quarterly Activity Report: Quarter 2, Fiscal Year 2014–2015* as information for the council. This report summarizes the activities of the Trial Court Facility Modification Advisory Committee from October 1, 2014 to December 31, 2014.

Previous Council Action

The Trial Court Facility Modification Working Group was established by Judicial Council policy in 2005. The working group first met in April 2006 and operated under the *Trial Court Facility Modifications Policy*,¹ adopted by the Judicial Council in 2005 and revised on December 12, 2014. The working group's primary oversight responsibilities included reviewing statewide facility modification requests and approving facility modification funding.

¹ As adopted in 2005, the policy was known as the *Prioritization Methodology for Modifications to Court Facilities*. When it was revised in 2012, the name also changed. See www.courts.ca.gov/documents/jc-20120727-itemG.pdf.

The working group's charge was formalized by the Judicial Council on December 14, 2012, and the working group was assigned additional oversight responsibility for the operations and maintenance of existing facilities, noncapital-related real estate transactions, energy management, and environmental management and sustainability. On April 25, 2013, the working group's status was elevated to that of advisory committee.

An updated Court-Funded Facilities Request approval process was submitted and approved by the Judicial Council on August 23, 2013, requiring all Court-Funded Facilities Requests to be reviewed and approved by the Trial Court Facility Modification Advisory Committee (TCFMAC). These submittals may include lease-related costs (e.g., lease payments and operating costs, repairs, or modifications required by a lease); allowable court operations expenditures under rule 10.810 of the California Rules of Court (e.g., equipment, furnishings, interior painting, flooring replacement or repair, furniture repair, or records storage); and other facility improvements that are not allowable court operations expenditures under rule 10.810 (e.g., facilities operations, maintenance, repairs, and modifications, but not capital projects), if they would improve a court's functioning or reduce ongoing court operating costs.

Reports previously approved by the Judicial Council are available at www.courts.ca.gov/2567.htm under Research and Reports: Conditions in Our Courts.

Methodology and Process

Funding decisions were based on the prioritization and ranking methodologies in accordance with the *Trial Court Facility Modifications Policy*. Facility modifications are assigned one of six priority categories: Priority 1—Immediate or Potentially Critical; Priority 2—Necessary, But Not Yet Critical; Priority 3—Needed; Priority 4—Does Not Meet Current Codes or Standards; Priority 5—Beyond Rated Life, But Serviceable; and Priority 6—Hazardous Materials, Managed But Not Abated. These categories are based on methods commonly used by private-sector facility management firms. Facility modifications that are determined to be Priority 1 are to be addressed immediately and regardless of whether the court occupies a shared-use facility. With current budget constraints, the TCFMAC primarily limits approvals of facility modification projects to Priority 1 and Priority 2 projects. Delaying TCFMAC approval of these projects would cause continued court closures, operational failures, and undue risk to continued court operations.

Policy and Cost Implications

During the second quarter of fiscal year 2014–2015, the TCFMAC reviewed and approved a total of 386 facility modifications for a total projected cost of \$27,066,997. The Facility Modification Program's share of these projects totals \$23,396,856. These approved projects are limited to Priority 1 emergency projects and Priority 2 critical needs projects. Please see Attachment A for a detailed list of all approved projects.

During this quarter, eight projects required additional funds in excess of \$50,000 over their original estimates. The Facility Modification Program's share of these cost increases totals

\$1,128,963. Projects that require excess costs of this magnitude are typically Priority 1 emergency projects that do not have a full scope and cost estimate developed at the onset of the project and for which significantly more work or testing is discovered after commencement.

During this quarter, three Court-Funded Facilities Requests (CFRs) were reviewed and approved by the TCFMAC, including requests from Glenn, Los Angeles, and San Joaquin courts. As stated above, CFR submittals may include lease-related costs, allowable court operations expenditures under rule 10.810 of the California Rules of Court, and other facility improvement costs that are not allowable under rule 10.810. See Attachment B for a detailed list of CFRs approved by the TCFMAC during the second quarter of fiscal year 2014–2015.

Implementation Efforts

The TCFMAC conducted an in-person meeting on November 3, 2014, at the Sacramento office, and a teleconference on December 15, 2014, to review facility modification funding requests and to discuss the following topics:

- Regular review of facility modification projects lists: A (Emergency and Priority 1), B (FMs Under \$50K), C (Cost Increases Over \$50K), D (FMs Over \$50K Eligible for Funding), and F (Court-Funded Facilities Requests);
- Discussion and review of facility modification requests for Priority 3 projects received from courts;
- Status updates on the Department of Finance (DOF) denial response to the FY 2015–2016 budget change proposals;
- Informational presentation from Judicial Council staff to review expenditures from FY 2013–2014 relative to the operational budget;
- Review and approval of a utility cost outreach letter that was sent to all presiding judges;
- Informational presentation from Judicial Council staff to review the process involved in obtaining a solar power purchase agreement;
- Discussion and review of the DOF deferred maintenance report;
- Informational presentation from Judicial Council staff to review current staffing status and constraints;
- Discussion of comments received from the Superior Courts of Merced, Nevada, Placer, Santa Barbara, Solano, and Tulare Counties;
- Discussion and review of proposed California Rule of Court 10.65 (Trial Court Facility Modification Advisory Committee; adopted effective January 1, 2015);
- Discussion and review of the *Annual Report of the Trial Court Facility Modification Advisory Committee for Fiscal Year 2013–2014*;
- Judge David Edwin Power’s visit to the Napa County Historic Courthouse and Napa County Criminal Courthouse to examine the earthquake damage and the ongoing repairs at both facilities; and
- Site visit conducted by Ms. Christina Volkens, court executive officer of the Superior Court of San Bernardino County, at both the Superior Court of Placer County’s Auburn jail arraignment courtroom and the shelled facility at the new Placer jail.

Next Steps

The *Trial Court Facility Modification Quarterly Activity Report: Quarter 3, Fiscal Year 2014–2015* will be submitted to the Judicial Council in June 2015.
